GSE

The global design and engineering
company

Construction documentation

Areas of work

Construction documentation

GSE develops design documentation of non-standard process equipment and items for various applications in industrial plants.

The design documentation is developed using the Autodesk Inventor, SolidWorks, and Revit software.

The projects are executed by skilled professionals with solid experience in industrial plants.

We offer the most effective solutions at the most optimal price

Who we are

The team of professionals founded in 2011 focused on the full cycle of designing activities related to the construction and reconstruction of the industrial infrastructure objects of all levels of complexity
